

# CAROLINA CANINE COLLEGE

**Carolina Canine College** is co-owned & operated by Janet Kelly, an experienced dog trainer. Janet was a school teacher for 28 years; however, the moment she started training dogs with the Fort Worth Dog Training Club in 1989, the dream was to run a dog facility. In 2024, that dream became a reality, thanks to Kim Petrone. Kim is the founder & other co-owner / trainer here at CCC; she got her start as a member of Bayshore Companion Dog Training Club in Red Bank, NJ. Kim specializes in puppy development; her style is balanced & guided by the dog's personality & ability to learn. Both Janet & Kim are Canine Good Citizen trainers & evaluators.

**Carolina Canine College** offers the following services:

## **DAYCARE**

Regular Daycare hours are Monday through Friday, 8:30 am - 5:30 pm; however, special circumstances are considered. Weekend Daycare available upon request & availability.

## **TRAINING**

## **COMMANDS**

---

These are the terms we use while training at **Carolina Canine College**. You certainly do not have to use these terms, but whatever word(s) you choose, you must be consistent. In other words, please say “Down” only when you want the dog to lie down and “Off” (or some other word) for when a dog needs to get off the couch. The other big pair is “Wait” versus “Stay”. For my dogs, “Wait” means to hang out in the general area, but no big deal if they move. If I say “Stay” to my dog, I expect her to stay where I left her, without moving position, until I come back to release her.

Please note that these terms are **COMMANDS**, not questions or suggestions. You should always deliver commands with an assertive voice; not aggressive, but also not passive. Your dog needs to know that it’s a command, so get his attention first.

Back – back up (in heel position)

Come – come sit front while looking at me

Come Around – turn right

Down – lie down

Drop It! – drop whatever’s in your mouth, dog!

Easy – don’t bite the hand that feeds you, dog!

Go On! – forward focus

Go Potty – go potty

Proper  
“heel”  
position

Heel – dog's right shoulder lined up with handler's left ankle

Here – come here to this general area

Hit It! – two (rear) paws on, two (front) paws on the ground

Hup – jump up

Hurry – speed up

Jackpot! – BIG reward; CRAZY high-pitched praise, pets, & treats!

Jump - jump over

Leave It! – do **NOT** touch under ANY circumstances

Let's Go! – heel

Look/Watch Me – make and maintain eye contact

Off – get off (my leg, the couch, counter, etc.) NOW!

Okay – release word

Over – jump over

Quiet – for the love of Pete, PLEASE stop barking!

Shake – paw offered to handler

# bootcamp *training*

*Full-Day Daycare included.*

This program works best with young dogs as it establishes a strong foundation which paves the path to canine adulthood. Starting life off on the right paw is essential to developing a well socialized & obedient member of your family. Without proper training, that cute, lovable bundle of fur can grow into an out-of-control terror. Don't let that happen. Too many dogs are dropped off at shelters because they didn't get proper training and owners can no longer deal with destructive & uncontrollable behaviors. That being said, it's also never too late for an old dog to learn new tricks!

This program offers:

- Fast Results: Your dog learns directly from a professional and receives several hours of hands-on training per day. On average, your dog will receive 30+ private contact training sessions during one week of Bootcamp.
- Repetitive, Reinforced Learning: Your dog spends the entire day in a controlled and structured environment where every decision is guided and reinforced. Many dogs find this situation very therapeutic.
- Reduced Stress: Your dog is allowed to work through the challenging early stages of training that many owners may not have the time or knowledge to apply consistently. Your dog will learn desired behaviors through consistent, repetitive reinforcement, thereby extinguishing problematic behaviors without conflict, combat, or stress.
- Enhanced Customization: The amount of time the trainer spends with your dog during Bootcamp allows a much deeper understanding of your dog's unique learning preferences. Specific strategies & exercises are designed for each individual dog. This is especially valuable with difficult behavioral cases.

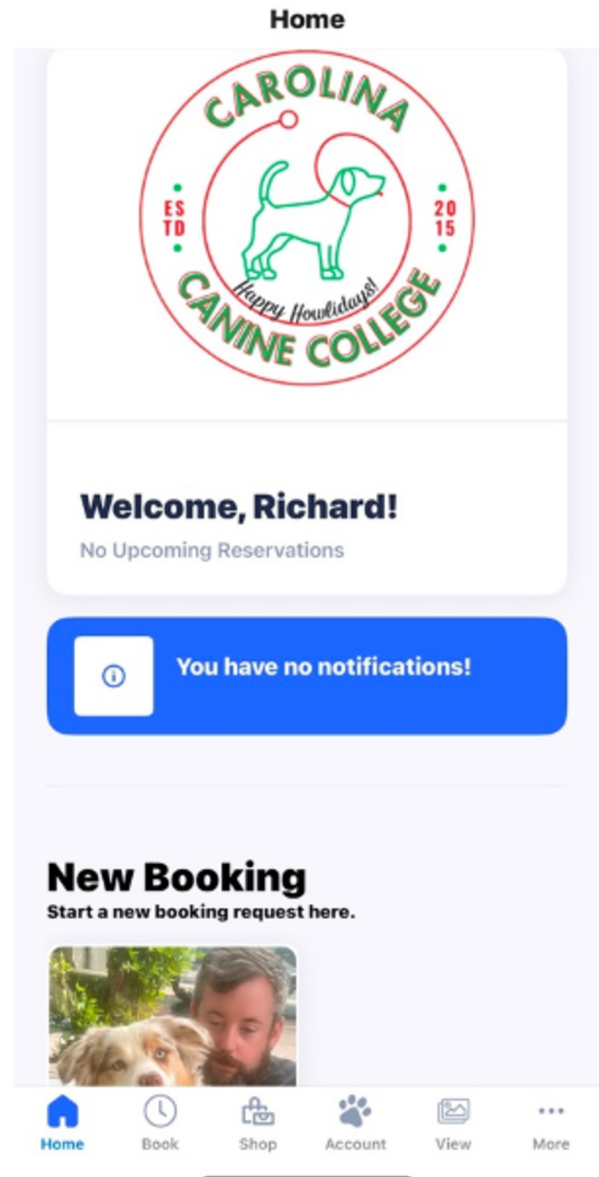

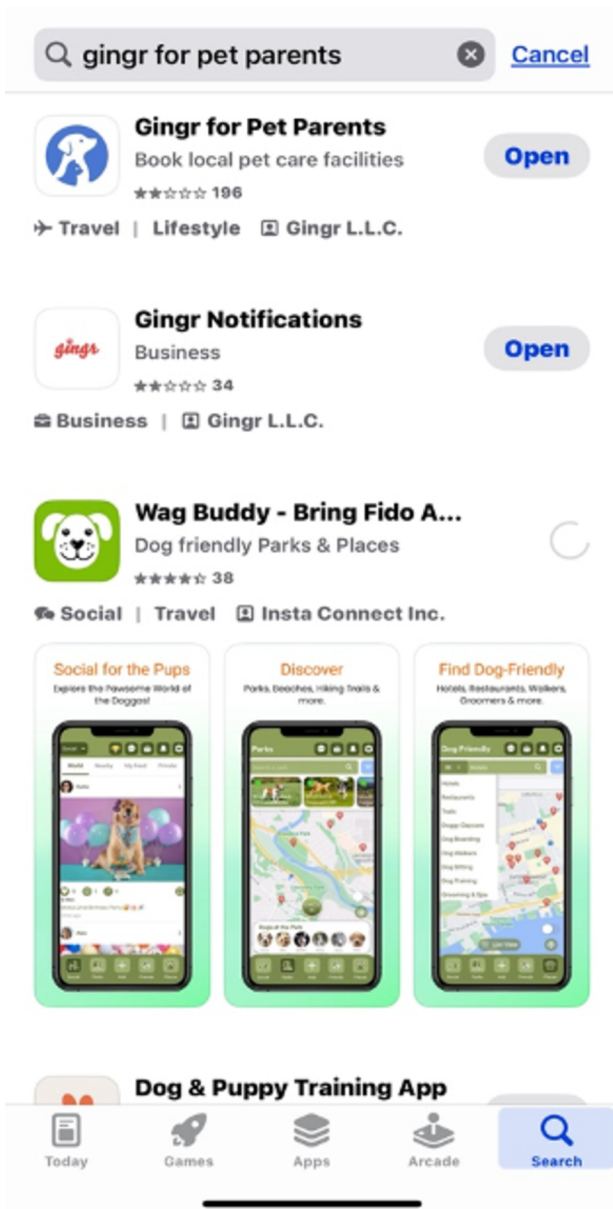

Required Equipment: An appropriate training collar (no harnesses). If your dog is on a special diet, please provide the trainer with compatible treats.

\* Please do not feed your pup in the mornings of Camp; if you'd like, you can bring your dog's breakfast for the instructor to use as treats for training.
